

Liquid Radiance ...

a unique concept in fabric colouring ... design your own fabrics ...
colour your ribbons, threads and laces ... light fast and colour fast
in all fabrics and fibres ...

Enjoy our packs at these special prices ...

- **NINE PURE PIGMENT COLOURS** from which you can mix absolutely any colour you wish ... our Colour Mixing Guide will get you started.
- **VERY CONCENTRATED COLOURS** ... must be diluted with water ... 50:50 for super strong colour ... 1 part concentrate to 3 parts water for bright, vibrant colour ... lots of water for paler shades!
- **NON-TOXIC AND NON-POLLUTING**, these colours are safe, and simple to use. They wash off skin easily, and leave no residual stains.

A finely milled liquid acrylic colour that performs like a dye in fabric ... no steaming required ... no messy fixatives or chemicals.

WE NEED YOU TO KNOW ... Liquid Radiance is packaged with a flat cap. We recommend you replace this with a dispenser cap to avoid the 'tip and spill' method of getting it out of the bottle! The dispenser cap is strong and durable, and with correct use will last for years!! It makes sense to me that you purchase a dispenser cap the first time you buy any particular colour, and put it on the next bottle of that colour when the previous one is used up, and so on. Caps can be washed out occasionally to keep them from clogging. Sometimes you need just a few drops of colour in your 'mix', and it is impossible to dispense this by pouring. By using the dispenser caps, you can drop or pour the colour as required. Dispenser caps are supplied in the Liquid Radiance packs above.
