

Liquid Radiance ... a unique concept in fabric colouring
... design your own fabrics ... colour your ribbons, threads and laces ...
light fast and colour fast in all fabrics and fibres ...

Enjoy our packs at these special prices ...

- **EIGHT PURE PIGMENT COLOURS** from which you can mix any colour you wish ... our Colour Mixing Guide will get you started.
- **VERY CONCENTRATED COLOURS** ... must be diluted with water ... 50:50 for super strong colour ... 1 part concentrate to 3 parts water for bright, vibrant colour ... lots of water for paler shades!
- **NON-TOXIC AND NON-POLLUTING**, these colours are safe and simple to use. They wash off skin easily, and leave no residual stains.

Learn via my videos on the Website and YouTube

A finely milled liquid acrylic colour that performs like a dye in fabric. No steaming required ... no messy fixatives or chemicals.

Liquid Colouring Pack \$169.50
 [Total Value \$178.90]

This pack is 'ready to go' ... simply dilute the concentrates with water and start colouring ...

Pack contains: NINE Liquid Radiance colour concentrates (all 8 colours, but 2 yellow as it is high-usage when mixing), a dispenser cap for each colour, and ten dispenser bottles to pre-mix the colours with water ready for action, and our handbook "Fabulous Fabrics" explaining a whole range of designing techniques.

Liquid Radiance "Six Pack" \$131.50
 [Value \$136.60]

Pack contains: Six Liquid Radiance colours (yellow, red, blue, magenta, green, and black), a dispenser cap for each colour, ten dispenser bottles to mix colours from 'the basics', and our handbook "Fabulous Fabrics".

Liquid Radiance Mini-Pack \$69.50
 [Value \$73.30]

Pack contains: Three primary colours – yellow, blue, and magenta – three dispenser caps, five dispenser bottles, and "Fabulous Fabrics" handbook.

WE NEED YOU TO KNOW ... Liquid Radiance is packaged with a flat cap for economy. We recommend you replace this with a dispenser cap to avoid the 'tip and spill' method of getting it out of the bottle! The dispenser cap is strong and durable, and with correct use will last for years!! By purchasing a dispenser cap the first time you buy any particular colour, you can then reuse it for that colour when the bottles are used up and you have purchased the replacement. Caps can be washed out occasionally to keep them from clogging. When you need just a few drops of colour, it is impossible to dispense this by pouring. By using the dispenser caps, you can drop or pour the colour as required.

ADD A DVD – or TWO – for just \$10 extra (each) when you purchase any of our Liquid Radiance packs.

Liquid Lustre Pack \$67.50
 [Value \$72.40]

Pack contains: All four Liquid Lustres gold, silver, copper, and pearl, plus four dispenser caps and instructions.

- **Colours are all available individually.**
- **Extra bottles and caps will be handy when building up your range of mixed colours for your projects.**

Pack of 10 Dispenser Bottles \$38.50
 [Bottle with dispenser cap usually \$4.20 each]

Pack of 10 Dispenser Caps \$18.50
 [Caps usually \$2.10 each]
 Useful for converting your empty concentrate bottles for use when diluting more colours.

Individual LR Colours (each) \$12.00
 Yellow, red, blue, magenta, green, purple, brown, black, cyan

Individual Liquid Lustres (each) \$15.50
 Gold, silver, copper, pearl

Prices applicable until 30th June 2024

Making Stencils ... the Easy Way!

Accessories ... Accessories ... Accessories ... We girls (and fellas too) all know that the way to enhance any outfit we wear is by adding the right accessories. To get the best from your painting skills, the same applies ... the right accessory for the task will always produce the best results.

At Genesis Creations, we don't have LOTS of things to sell you in our accessories range. But what we do have is the RIGHT TOOL FOR THE JOB, to be used hand in hand with our painting techniques.

Our Stencil Burner is a perfect example of 'the right tool for the job'.

Stencil Burner ... Just \$60.00

Yes, ours is 'the original' and the best, made right here in Australia ... designed by Anne in coordination with qualified engineers to develop the perfect tool to cut the finest stencil designs so simply. We have taken the comfort of a commercially recognizable handle, and adapted its 'inner workings' to produce the superb results of which it is capable.

IMPORTANT:

- Always use **ONLY** our specially engineered brass tip in our Stencil Burner handle - never substitute other tips. Our tip is electrically balanced for complete safety, and approved to Australian electrical standards.
- Never put our stencil burner tips into other handles.
- Always use only our non-toxic stencil sheeting when making your stencils. Most plastics emit toxic fumes when burned or heated. Ours is totally safe.

SOME SUGGESTED USES:

1. Stencils for painting techniques in fabric art, home décor ... all decorative painting techniques.
2. Make your own quilting stencils.
3. Prepare durable patterns for doll and bear making.
4. Use for cutting fabrics and laces for cutwork embroidery.

OUR BURNER COMES TO YOU WITH A FREE STAND

STENCIL SHEETS

Our stencil sheeting has been specifically chosen for its non-toxic properties ... it will not emit poisonous fumes when burned. It is strong and durable, giving YEARS of stencil life. You can cut the most delicate stencils and not have your designs split and crack. Stencils are simply cleaned with an old toothbrush and sudsy water.

AVAILABLE IN TWO SIZES

A3	\$6.00 per sheet
A4	\$3.00 per sheet

Prices applicable till 30th June 2024
