

Colour Mixing Guide

for *Liquid Radiance*

**Vibrant colours for use on all white or light coloured fabrics,
from Silk to Synthetics.**

From our range of eight pure colours, it is possible to mix whatever colour you wish!
The colour range really becomes limitless !! The following colours are some of our 'favourites'

To obtain the MIXED COLOUR:

- ◆ Mix [] parts PURE COLOUR (1) with [] parts PURE COLOUR (2), and add [] parts PURE COLOUR (3) where applicable.
- ◆ PARTS can be measured by counting drops from the dispenser cap, or 1 ml by eye dropper. Larger quantities can be mixed using a 10 ml medicine glass.

<i>MIXED COLOUR</i>	<i>PURE COLOUR (1)</i>	<i>PURE COLOUR (2)</i>	<i>PURE COLOUR (3)</i>
